

Unleash the **True Value** of People in Your Organisation

Delivering Smarter HR Technology and a proven ROI across organisations; from mid-size to enterprise

Working in partnership with leading brands for over 36 years, our unified HR and Payroll solution supports the entire employee lifecycle, drives efficiency and delivers a proven ROI; all while giving you peace of mind when it comes to data security and compliance.

Providing a rock solid foundation for key HR functions, our solution makes light work of administration and empowers your employees to take control of daily tasks and data on any device, anywhere.

People Management

- Access and enter employee records on one platform, while empowering employees and managers to own their individual and team data through self-service capabilities
- Hyper-connected onboarding that improves 1st year employee retention levels and saves £'000s in data and process management

Workforce Management

- Proven increase in productivity by up to 81% through flexibility of shift-swaps, enabling teams to easily collect, track, and manage their own time
- Using real-time data driven intelligence, automatically generate optimised rostering, proven to reduce HR operational costs by up to 50%

Payroll

- A fully integrated payroll system delivering a right pay, right day promise while reducing the administrative burden on your Payroll and HR teams
- Upload receipts, calculate mileage, create and track expense claims on the go at any time

Recruitment

- Reduce cost to hire and time to hire by 33% without compromising on the quality of hires
- Cast a wider net, attract the right talent and make better hiring decisions with our unified ATS system
- Improve recruiting efficiencies by up to 63% for both requisition-based and high volume hourly talent

Talent

- Achieve a 74% increase in employee performance using innovative solutions to skill up, align, and engage your teams
- Develop a strong pipeline of future leaders that will make a greater impact on profitability using simple and intuitive tools

Analytics

- Go beyond operational focus and influence the C-suite by strategically aligning human capital decisions with business priorities
- Cross-analyse HR and business metrics together to show the relationship between investment in people processes and business outcomes
- Deliver true value of HR using predictive insights, proactively alerting and providing timely business advice to C-suite and business managers

Core Hub

- A centralised collaboration hub, connecting companies and experts for shared practice
- Maintain organisational agility by leveraging the wisdom of the crowd

The CoreHR Difference

Delivering A Compelling ROI

We are uniquely placed to deliver the most compelling ROI, with the lowest total cost of ownership in the shortest timeframe.

Customer Centric Innovation

Incorporating over 90 customer led ideas into our product over the last 12 months, our customer centric approach has enabled us to maintain a 98% client retention rate.

Unrivalled Breadth & Depth Of Functionality

We offer more functionality on one platform than any other supplier in the HR technology market; securely handling over 100 million transactions each month and available in 23 languages.

Speed To Excellence

We are currently 3 times faster than our closest rival at getting you up and running, delivering a fully tested and proven solution to you in just 30 days.
